Lift for Life® Training Course Overview

The Lift for life® training is:

- provided by an Exercise Physiologist
- delivered in small groups over two days
- is made up of both theoretical and practical components
- involves a compulsory written component
- requires participants to work through a pre-training DVD prior to the face-to-face workshops
- accredited for 15 CECs by Fitness Australia
- is made up of ten modules
 - the Lift for Life® Market
 - common Chronic Disease Conditions
 - diabetes Explained
 - current Resistance Training Research
 - strength Training Guidelines
 - the Lift for Life Program
 - approval, Assessment & Prescription
 - client's Safety & First Aid
 - introduction to Motivational Interviewing

Lift for Life® Delivery

The Lift for Life® program may only be conducted by Accredited Trainers. To become an Accredited Lift for Life® Trainer, Exercise Professionals must meet the following criteria:

- a) Hold Certificate IV in Fitness (Personal Trainer), AND have a minimum of two years work experience
OR be an Accredited Exercise Physiologist
OR be a Physiotherapist

AND

- b) Hold a current Senior First Aid Certificate
- c) Hold a current industry professional registration
- d) Hold current professional indemnity insurance
- e) Successfully complete the Lift for Life® Trainer's Accreditation Course
- f) Be employed at an accredited Lift for Life® provider facility or licence your facility to deliver Lift for Life®

Exceptions to the qualification requirements may be made in areas that are identified to have extreme workforce shortages. This will be assessed on a case-by-case basis. For more information contact the Lift for Life® Program Manager, David Menzies at david.menzies@fitness.org.au or 03 9926 5104.
